

Spiritual Blindness Book 1 Part 3

Matn/ Text

3. Some form of distance from my spiritual base of tranquillity to any physical landing space outside the base position; creates some form of “light energy”, (for lack of a better term); or a better term; aiding introspection to align my mind(mental illness) with my spiritual heart/ spirit(immediately)

This spiritual distance(regardless of its physical counterpart), creates an energy that is binding upon me to address(in order to get back to the darajaat), the positive paths(suluuk), actions('aml) i.e. sincerity/ Ikhlaas and mutaaba'ah(conforming to the sunnah) i.e. to get my physical path back to the path of suluuk (i.e. ephemeral spiritual parallel realignment- between suluuk and my actual physical location)
